LinkedIn Profile: - <https://www.linkedin.com/in/gudiya-kumari-612383182>

OBJECTIVE:

Experienced React JS Developer with one year of hands-on experience in building web applications and a strong foundation in Core Java and Google Cloud Platform (GCP). Seeking to leverage my skills and expertise to contribute to innovative projects while continuing to expand my knowledge in web development and cloud technologies.

PROFESSIONAL EXPERIENCE:

React JS Developer

- Working as React Developer in **Selrom Software**, Bangalore from June 6, 2022.
 - Developed responsive and user-friendly web applications using React JS, HTML, CSS, and JavaScript.
 - Collaborated with cross-functional teams to gather requirements, design user interfaces, and implement efficient solutions.
 - Integrated RESTful APIs to fetch and manipulate data, enhancing application functionality.
 - Implemented state management with Redux and managed application routing with React Router.
 - Conducted code reviews and collaborated with team members to maintain code quality and adhere to best practices.
 - Worked closely with designers to ensure pixel-perfect implementation of UI/UX designs.
 - Utilized version control systems (Git) for code management and collaboration.
 - Debugged and resolved issues, ensuring a smooth user experience.
 - Continuously learned and applied new technologies and best practices to enhance development skills.

Front-End Developer Intern

- Worked as Front-End Developer in **Vraio Software Solution**, Bangalore from Feb '1 to June 1 2022.
 - Assisted in the development of React-based web applications under the guidance of senior developers.

- Gained experience in frontend development, debugging, and troubleshooting.
- Worked on improving application performance and user interface components.
- Collaborated with the team to resolve bugs and implement new features.

SKILLS

- Programming Languages: JavaScript, Core Java
- Web Development: React JS, HTML, CSS, Bootstrap
- State Management: Redux
- Routing: React Router
- APIs: RESTful
- Version Control: Git
- Cloud Platform: Google Cloud Platform (GCP) - Basic knowledge
- Development Tools: Visual Studio Code, Chrome DevTools
- Code Quality: Code reviews, debugging, and optimization
- Communication: Strong written and verbal communication skills
